In nineteen hundred and seventy-five,  
All the people rose from the countryside,  
Locked together hand in hand all through this unsteady  
land,  
To move against you government man do ya'  
understand,  
Gonna roll roll roll the rock around roll roll roll the rock  
Around lift the rock out of the ground

At the Battle of Forever Plains,  
All my people hand in hand in hand in the rain,  
The laser way won the day without one single living  
soul going down.  
The government troops were circled in the sun gun  
found themselves on the  
Run... from our nation, the rock is raised no need to  
hide from  
The other side now... transformation

Call high to the constellation headquarters call high to  
the  
Most high directors send out the transporting systems  
and  
Send out the sun finders  
Thirteen battalion of mind raiders three hundred  
master  
Computer killers from great platforms in the mountains  
Twenty mile lasers & great giant trackers... twenty  
miles  
South now in 1975 all my people rose from the  
countryside until we  
Meet again and touch our hands together in another  
land  
Until we meet again & see each others minds we  
Three have met again and touched our hands talking  
of  
Napoleon in the garden we will muffle the drums  
tomorrow  
Mornin gonna roll roll roll the rock around gonna roll  
roll  
Roll the rock around lift the rock out of the ground
