One time, run around, don't look turn for me to go your way

You left me here with out anything to love, I'll tell you  
I've had enough of your hands running round my brain  
And I've had have enough of the way that you cause  
me pain

So slow down, run around your other side, walk with me  
instead tonight

We could be near like we use to be before  
Ah girl, I need more of the times that you've turned me  
round  
And there's no time to turn away love I've found

So couldn't we forget about today, start again from  
where we were

We use to dance out to space without a care  
And our laughter come ringing and singing we rolled  
'round the music  
Blinded by colors come crashing from flowers  
That sway as you stay here by me

Slow down, run around your other side, walk with me  
instead tonight

We could be near like we use to be before  
Ah girl, I need more of the times that you've turned me  
round  
And there's no time to turn away love I've found, run  
around

One time run around, don't look back turn for me to go  
your way

You left me here with out anything to love, I'll tell you  
I've had enough of your hands running round my brain  
And I've had have enough of the way that you cause  
me pain, run around
