Words/Music: Kantner, Slick, Crosby

Last electric Sunday mornin' waitin' in the park for the
dawn
Listenin' to all the animals in the Park and in the city
beyond
Flashin' with my lady. sky goin' black to blue
She said I got a surprise for you

A child is coming
A child is coming
A child is coming to you

What are we gonna do when Uncle Samuel comes
around
Askin' for the young one's name
And lookin' for the print of his hand for the files in their
numbers game
I don't want his chances for freedom to ever be that
slim
Let's not tell 'em about him -

A child is coming
A child is coming
A child is coming to you, it's comin'
