Precious love, I'll give it to you  
Blue as the sky and deep in the eyes of a love so true  
Beautiful face, you make me feel  
Lite on the stairs and lost in the air of a love so real

And you can count on me  
Count on my love  
Count on me  
Count on my love to see you through

Emerald eyes and China perfume  
Caught in the wheel and lost in the feel of a love so  
soon  
Ruby lips, you make my song  
Into the night and saved by the lite of a love so strong

And you can count on me  
Count on my love, baby  
Count on me  
Count on my love to see you through

Ooh, you can count on me, girl  
Count on my love

Precious love, I'll give it to you  
Blue as the sky and deep in the eyes of a love so true  
Beautiful face, you make me feel  
Lite on the stairs and lost in the air of a love so real

And you can count on me  
Count on my love, baby  
Count on me  
Count on my love, baby

Count on me  
Count on my love, baby  
Count on me  
Count on my love
