Alright

Her mama don't like it
There's not a lot that she can do
Her daddy don't like it
She's stayin' out till after two

She likes to go her own way
Wild, reckless and bold
You can't hold her down boy
With diamond ring or fools gold

She's free so free
Free, free, free runnin' like a wild child
Free, free, free you kinda gotta like her style
Free, free, free don't she make you wanna smile

She likes to feel the night time
That is when she gets her kicks
Anytime's the right time
'Cause just can't get enough of it

She's free so free
Free, free, free there she's runnin' like a wild child
Free, free, free you kinda gotta like her style
Free, free, free, I know she does

She's free so free
Doing what she wants to do
She's free so free
So free, free, free, so free alright

She'll get your temperature risin'
Like no other girl you've known
She's full of surprises
Livin' in he danger zone

She's free so free
Yes, she is
