*Everybody jam everybody jam
Everybody jam everybody jam

** If you dig the rhythm why don't you dance
It makes you just really happy complete or judge
If you got a problem i'll make it your less
Just dance like you can get down can be yours, dance
We got the vibes in the feet from the people we meet
Come if you wanna take a peak be discreet
We got the crowd through the gate
We've gotta find a way to get our head off every single
day

* Repeat
**Repeat

#Just do what you do cuz everybody you know
they're just gonna Like what you do
Make your body work work
If you dance like a fool yet it'll still be a fool
You're doing fine & you're right on time
