People who listen for the best sound in the groove  
We know we got the music that makes your body move  
We like to dance, shake a booty now and then  
But you got to have the right moves to impress all your  
friends

Just move a little freaky, go real slow, take your time  
You've got to give your best to be right all the time  
If you dance with me and you like just what you see  
Then I know you'll have this next one with me

'Cause we all love freaky dancin' and romancin'  
Let's do it some more  
You can't fail once you're freakin'  
So, shake your pants and we'll party for sure  
We'll party for sure

In order to move like this  
Yes, you gotta have confidence  
Tell everybody that they'll have to wait  
For the nation to participate

You ready? New York, freaky dancin'  
L. A. freaky dancin'  
Atlanta, freaky dancin'  
Cincinnati, freaky dancin'

Shy Town, freaky dancin'  
Detroit, freaky dancin'  
New Port New freaky dancin'  
And our friends in Baton Rouge

They all love freaky dancin' and romancin'

Let's do it some more, let's do it some more  
You can't fail once you're freakin'  
So, shake your pants and we'll party for sure  
We'll party for sure

Freaky deaky  
Oh, no, no, no

If there's some places that you think we missed  
How can you say that with a groove like this  
The other places are just waiting to break  
Just bring it on on, baby rock and shake

You ready? D.C. freaky dancin'  
Dallas, Fort Worth, freaky dancin'  
Huston, freaky dancin'  
Philadelphia P.A. freaky dancin'

The Carolina's, freaky dancin'  
Cleveland, freaky dancin'  
New Orleans, freaky dancin'  
They're as freaky as can be

They all love freaky dancin' and romancin'  
Let's do it some more, let's do it some more  
You can't fail once you're freakin'  
So, shake your pants and we'll party for sure  
Party and shake me all night

We all love freaky dancin' and romancin'  
Let's do it some more  
You can't fail once you're freakin', my time to freak  
So, shake your pants and we'll party for sure  
We'll party for sure

Come on, come on, come on, come on
