Verse 1 (Male Lead)

Thank you love for caring all this time  
For every passing moment along the line  
I use to take this kind of love for granted, how I was  
wrong  
and now that I've been all around I've come back to you  
Chorus

And I'll never, ever look, look for love outside OUR  
DOOR  
Here's the love we've waited for, what's in the past will  
be no more  
I'm FOR you

Verse 2 (Female Lead)

let me hold you sweetheart just this time  
To remind us of what we mean to each other  
How can we let go when this is the only love we'll ever,  
ever want to know  
People say all things change, but our love will never say  
the same.....

(Chorus along with lots of Female ad lib)

outside ooooh oooooh oooooh  
Let me hold you for this moment woah, woah, woah  
Here's the love we've waited for, what's in the past will  
be no more  
I..I..I..I..I..I..I..I..lovvve you  
I-I-I really dooooo
