Knights, knights, knights, knights  
Knights, knights, knights, knights

Please don't think we're crazy  
If you see us walk and talk  
(I can dig it)  
We're the knights and we know this  
And we take things as they come, oh, yeah

We are the knights by nights  
(I'm a knight)  
And we can make things right  
(We can make it right)  
Sending love to all our friends  
(All our friends)  
Stay with you till the end, alright

Knights by nights  
(Knights by nights)  
Knights by nights  
(I'm walkin' tall)  
Knights by nights  
(Knights by nights)  
Knights by nights

What you say?  
Come on, knights

So few say you can dig it  
But do you really understand  
We're dedicated to the rhythm for your nation  
But every person must be tall, be strong  
We are the knights by nights  
And we can make things right  
(We can make it right)  
Sending love to all our friends  
(All our friends)  
Stay with you till the end

Knights by nights  
(We are the knights)  
Knights by nights

Knights by nights  
(Hey, hey, knights)  
Knights by nights

Knights by nights  
(Spreadin? love across the land)  
Knights by nights  
(We are the knights)  
Knights by nights  
(Knights, knights by nights)  
Knights by nights

Hey, what you say? Hey

Knights by nights  
(Hey, hey, knights)  
Knights by nights  
(We are the knights)  
Knights by nights  
(Knights by nights)  
Knights by nights

Knights by nights  
Knights by nights  
(We are the knight)  
Knights by nights  
(Knights by night)  
Knights by nights  
(Knights)  
Okay
