Work me out
Let's get physical
Wear me out..
Lets get physical
Work me out..
Let's get physical
Wear me out..
Let's get physical

The sweat is drippin down my back
It feels so good (so good)
The time and place is right now
Cuz I'm in the mood (the mood)
I wanna give you something
More than excercise (can you?)
Feel my body pumping as I work your thighs

Give me a test drive
A different kind of fitness.
Do you wanna hit this?
Do you wanna hit this?

Give me a test drive
A different kind of fitness.
Do you wanna hit this?
Do you wanna hit this?

Work me out
Let's get physical
Wear me out..
Lets get physical
Work me out..
Let's get physical
Wear me out..
Let's get physical

You know I'm hotter than a furnace
So take it slow
Clench my teeth together

As you start to blow.
You might get agoraphobic

So come inside (inside)
Come on let's do some more aerobic
exercise

Give me a test drive
A different kind of fitness.
Do you wanna hit this?
Do you wanna hit this?

Give me a test drive
A different kind of fitness.
Do you wanna hit this?
Do you wanna hit this?

Work me out
Let's get physical
Wear me out..
Let's get physical
Work me out..
Let's get physical
Wear me out..
Let's get physical

Don't get tired
We just got started.
While you weren't looking
The Pacific Ocean parted.
Don't get tired...
We just got started

Work me out
Let's get physical
Wear me out..
Let's get physical
Work me out..
Let's get physical
Wear me out..
Let's get physical
