Yeah, bitch. Myspacce.
My Myspace brings all the boys to the page
And they're like mine's better than yours
And I'm like you wish it was
Please comment or I'll have a fit

And they're like mine's better than yours
And I'm like you wish it was
Please comment or I'll have a fit

I'll let you comment and be your friend
You can depend on me (me, me, me)
For less than threes
There is no need
To delete

I left a bulletin
To see who wants to hang
Send me a message on aim (aim, aim, aim)
I'll pick you up
For a quick fuck
You like it rough

And when you get hit on
By an 80 year old
Please don't break out and cry
And go and tell your momma
Just make a bulletin
And tell all your friends
This guy is a prick
And watch your young clit
