Just take a picture, baby, Look at what I'm wearing,
Just take a picture baby, No need for staring.
You know that you want to, you know that you need to,
It will last longer for you. Baby say it now,

Oh my god, she looks good, (omg she looks good)
Oh my God, you know you wish you could (Baby Say it
now)
Oh my God She looks good, Oh my God,
you know you wish you could, but you can't be like this.

Oh, come on by the crib,
The girls start looking dib
Just shaking that boom boom.
Going all around and around and back again.
All the way around and around and back again
All the way around and around and back again,(what)
again,(what),again.

Don't be hating on me, no need to fake it,
Playing that games upon me, may they mistake it.
They know that they love me, they know that they hate
me,
No matter what, I am a sta-a-r.
Baby Say it now.

Oh my god, she looks good, (omg she looks good)
Oh my God, you know you wish you could (Baby Say it
now)
Oh my God She looks good, Oh my God,
you know you wish you could, but you can't be like this.

Oh, come on by the crib,
The girls start looking dib
Just shaking that boom boom.
Going all around and around and back again.
All the way around and around and back again
All the way around and around and back again,(what)
again,(what),again.
