## "Shantytown Carnival"

Visit "[Shantytown Carnival](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Tonight is free, tonight the streets  
Echo the sounds of the carnival  
Run will flow, crowd will grow  
Filin' the streets as drums start the beat  
We got rhythm strong  
Burnin' in our thighs  
Celebrate all night long 'cause we're alive  
A rich man come, shantytowns & slums  
Is where you find girls and grindin' drums  
See her sway she come his way  
Swinging' her hips juste melt all else away

Fire burns behind velvety eyes  
Slim silky waist can mesmerize  
This strangergone astray in dark alleyways  
Chase her through the crowd  
Drums beatin' loud, dance like a blade  
Each move she makes, he shudders with a start  
She's cut into his heart, the crowd's pressin' in  
They dance face to face  
Wa all cheer and grin, when they embrace
