"First Love"

Visit "[First Love](#)" on MotoLyrics.com

All at once you feel like doing cartwheels
There's someone you're always dreaming of
Your heart is set aflame and you'll never be the same
Once you find first love, first love, first love (first love)
Makes you feel 10 miles high
First love is a highway to the sky
It's nothing you could plan for nothing you could have
rehearsed
It happens on an instant, your first first love (first love)
What is it about it you just can't live without it
First love makes you feel 10 miles high
First love is a highway to the sky
It's nothing you could plan for nothing you could have
rehearsed
It happens on an instant, your first first love (first love)
Your first first love
