If I had one wish
If I had one wish
It would be to be free of this fighting all around
'Cause it's so wrong
And it could be so right
In my heart I know we're here to grow, to love, to give,
to learn, to live...
And I believe in miracles
Open up your eyes

Got a soul, got a mind
Got a heart that beats in time
You've got a smile, got a voice
Got the gift of love
You've got it good
Don't forget how lucky you are
Darling, darling, use it to connect with everyone

Don't you know we're golden
Covered up with mud
One day you'll see the truth that we all share the same
blood
Supposed to love thy neighbour
Together we should stand
Whatever colour, race or creed
Come on and hold my hand
'Cause I don't differentiate
We're all the same to me

Got a soul, got a mind
Got a heart that beats in time

You've got a smile, got a voice
Got the gift of love
You've got it good
Don't forget how lucky you are
Darling, darling, use it to connect with everyone

And it's getting so serious
Crushed my heart in pieces
But I know I'm not alone in wanting peace
Not alone

And if you feel what I feel
Raise your hands with me

Got a soul, got a mind
Got a heart that beats in time
You've got a smile, got a voice
Got the gift of love
You've got it good
Don't forget how lucky you are
Darling, darling, use it to connect with everyone

Got a soul, got a mind
Got a heart that beats in time
You've got a smile, got a voice
Got the gift of love
You've got it good
Don't forget how lucky you are
Darling, darling, thank you for the moments that we
had
