Maria, salimos esta noche?
Ay, no se
Maria, igual encuentras un chico guapo
No se, estoy cansada
Sabes que? Que vas a salir y serÃ¡ una gran noche

Spinning round and I touch the ground
And I let go of my mind
Let the music take over my body
And I start to unwind

Feel the heat as I rock the beat
And I see your sexy smile
Intense attraction, bodies like magnets
My thoughts start to run wild

De arriba nace el amor

I want you to love me
I want you to touch me
I want you to know me
I want you to show me

I want you to love me
I want you to touch me
I want you to know me
I want you to

Moving forward and arching back
With that hot look in your eye
Up so close I can feel you touching me
No time to be shy

Head to head, no I won't be lead
Well I, I'll put up a fight
Feel the bass now, my pulse is racing
And I'm flying tonight

De arriba nace el amor

I want you to love me
I want you to touch me

I want you to know me
I want you to show me

I want you to love me
I want you to touch me
I want you to know me
I want you to

De arriba nace el amor

I want you to love me
I want you to touch me
I want you to know me
I want you to show me

I want you to love me
I want you to touch me
I want you to know me
(De arriba nace el amor)
I want you to show me

I want you to love me
I want you to touch me
I want you to know me
(De arriba nace el amor)
I want you to
