You never dreamed how far it would go
You never thought to look ahead no no
You let it get out of hand babe
So look where it's led
So so look where it's led

So your running (running)
Running like the wind yeah your running (running)
Fear is in your eyes your running (running)
Running like the wind
When will you get wise?

(Running like the wind)
(Running like the wind)

It didn't have to end like this
We would have found another way somehow
If only you had turned to me
But I'm afraid
It's too late now
It's too late now

If your running (running)
Running like the wind yeah your running (running)
Everything looks black your running (running)
Running like the wind
But there's no turning back
(Running)
Running
(Running)
Running like the wind yeah your running (running)
Everything looks black your running (running)
Running like the wind
There's no turning back
There's no turning back
