Here I come, you better watch out  
I'm falling like the rain  
On the run from all of the clouds  
They're chasing me away  
I wish I could stay  
But I am just not built that way, yeah  
I'm water in your hands now  
I'm slipping  
I'm caught up in the moment, soon I will be going  
You can't keep water in your hands  
Don't be sad, Baby, don't cry  
This is just the way that life goes  
Just like that, hello and goodbye  
What we catch we really can't hold  
I wish you could see  
I'm like the rain, I'm falling free, yeah  
I'm water in your hands now  
I'm slipping  
I'm caught up in the moment, soon I will be going  
You can't keep water in your hands  
And before I slip away  
I'll leave you with a trace of?  
Water in your hands  
I'm slipping  
I'm caught up in the moment, soon I will be going  
You can't keep water in your hands  
Water in your hands  
I'm slipping, slipping  
I'm caught up in the moment, soon I will be going
