### "We're Making It Happen"

Visit "[We're Making It Happen](#)" on MotoLyrics.com

You and me helping people  
Together we're making it happen  
On and on, stemming the tide  
Together we're making it happen  
We're making the bells of liberty ring  
By getting into that, that wonderful swing  
We're adding new notes to those red, white and blue  
notes  
By and by, we never say die  
Together we're making it happen  
We're making the bells of liberty ring  
By getting into that, that wonderful swing  
We're adding new notes to those red, white and blue  
notes  
Together we're making it happen
