haaaaaaa
oh no

I feel a loss and its' got me kinda shook
I keep on searching but its' no where I look

Something is missing
Something is missing in my life
Won't somebody tell me where its' gone
Something is missing in my life
Somebody tell me where I've gone wrong with my life

I move around keep going day and night
Looking for answers but there no where in sight
Something is missing
On the bus or walking down the street
I feel lonely
Lost and incomplete

Something is missing in my life
Won't somebody tell me where its' gone
Something is missing in my life
Somebody tell me where I've gone wrong with my life

(Something is missing in my life)
In my life
(Something is missing in my life)
Something is missing
(Something is missing in my life)
Something is Missing
