

Jem And The Holograms

"We're Making It Happen"

Visit "[We're Making It Happen](#)" on MotoLyrics.com

You and me helping people
Together we're making it happen
On and on, stemming the tide
Together we're making it happen
We're making the bells of liberty ring
By getting into that, that wonderful swing
We're adding new notes to those red, white and blue
notes
By and by, we never say die

Together we're making it happen
We're making the bells of liberty ring
By getting into that, that wonderful swing
We're adding new notes to those red, white and blue
notes
Together we're making it happen
