Here I come, you better watch out
I'm falling like the rain
On the run from all of the clouds
They're chasing me away
I wish I could stay
But I am just not built that way, yeah
I'm water in your hands now
I'm slipping
I'm caught up in the moment, soon I will be going
You can't keep water in your hands
Don't be sad, Baby, don't cry
This is just the way that life goes
Just like that, hello and goodbye
What we catch we really can't hold
I wish you could see
I'm like the rain, I'm falling free, yeah
I'm water in your hands now
I'm slipping

I'm caught up in the moment, soon I will be going
You can't keep water in your hands
And before I slip away
I'll leave you with a trace of?
Water in your hands
I'm slipping
I'm caught up in the moment, soon I will be going
You can't keep water in your hands
Water in your hands
I'm slipping, slipping
I'm caught up in the moment, soon I will be going
