"My Happiness"

Visit "[My Happiness](#)" on MotoLyrics.com

Tonight I felt happy with you by my side
You've tried to calm my heart when I need someone
beside me...
Why you always reach and comes to me
When I try to let you go to forget you and choose her

Will you play my heart again and let me cry in
loneliness
You take my life to happiness until I felt
Dying if you were not here

[Reff:]
So come back to me I want you to be yourself again
Just like you used to be
I miss your lovely kiss in my cheek
And your hug when you say goodbye to me

You've cheer me up when I try to grab my dreams
You've always makes me dreams about you all night
long
Your love makes me forget her
Don't go away from me
I hope you'll never forget me

You're my happiness and my future
