Every word in my head is old and used  
How can I sing a song that's new?

In this whole wide world I want you to calm me down  
In this whole wide world I want you

Every day ends with the setting sun  
Every night my dreams are all the same

In this whole wide world I want you to calm me down  
In this whole wide world I want you

We've got a lot of things that we could try  
Come on make it happen baby

Everything in this life has it's time  
I hope you will take up a lot of mine
