I'm running on empty now
Even I can't get by with out it no
Won't somebody help me out
Come on and Give me what im calling for

Satisfy my soul
Leave it so nourished and
Filled with all that I want
I want to be full of it

The joy I ain't feelin
Take away my woe

My hearts getting heavy but
There's nothing left inside
I've been strung up and emptied out
Oh come on and give me what im needing

Make me whole
Feeling brand new again
I want that new feelin
Come make me full of it

The joy I ain't feelin
Take away my woe

Woe when dreaming
Woe i'm awake
Woe the feeling,
Woe the pain

Take away my woe
