Got off of my bed, it was three a.m.  
No one by my side, must be dreaming again  
Spirits seem so real like an angel's kiss  
Makes me think that heaven must be just like this

I close my eyes and fantasize  
I realize there's a star in your eyes  
Strange as it seems, I'm caught between  
And I'm calling now

[Chorus]  
Heaven come down, hear my prayer  
Send me down a love that won't disappear  
Heaven come down out of my dreams  
Turn this love around

Working day's done, driving in my car  
I hear a voice like a guiding star  
I can't help but feel someone's here with me  
Let's me know how done paradise can be

I search my soul and lose control  
I recognize there's a star in your eyes  
Strange as it seems, I'm caught between  
And I'm calling now

[Repeat Chorus]

Heaven come down hear my prayer  
Send me down a love...  
Heaven come down out of my dreams  
Turn this love around

I close my eyes and fantasize  
Strange as it seems, I'm caught between  
And I'm calling now

[Repeat Chorus... fade]
