Everyone makes mistakes,
But we also do some good.
That's the risk we take
To know which friends are here for good.

I will let you down, I'm sure.
I got a lot of work to do, and more.

Could you love me despite it all,
All these scars?
Because these very cursed things are what got me this
far.
I am willing to change, and I'm ready to grow.
Just say you'll love me despite it all,
And then show, that your word is good.

People tend to come and go,
But I'd rather that you stay.
'Cause if there's one thing I know,
Where there's a will there is a way.

You will let me down, I'm sure.
We got a lot of work to do, and more.

I could love you despite it all,
All your scars.
Besides, those very cursed things
Are what got you this far.
Are you willing to change?
Are you ready to grow?
I'll say I'll love you despite it all, and then show,
That my word is good.

Show you that my word is good.
Show you that my love is good.
