"Gone"

Visit "[Gone](#)" on MotoLyrics.com

Can you imagine what it would be like we never met?
We never kissed can you imagine if we never got to
Spend those nights in each other's arms?

Chorus

But I don't know how it feels
But it will probably kill me
Probably it will tear me down
Cause I don't wanna think about it
My heart can't take it if you were gone
If you were gone (repeat)

Can you picture yourself getting over me with someone
else
I can't cause I feel like we are the exception to the rule I
know
This love is true

Chorus

Don't... too excited to see what tomorrow brings
You changed my world around and I am not scared to
Go fall down in love but if you were gone if you were
gone (repeat)
