We ain't spend no time together in a minute  
And it's starting to take it's toll on us  
It's not like the way it was in the beginning  
The smallest things can end up in a fuss  
I wanna share with you exactly what I'm feeling  
And tonight's gon' be the perfect time  
So boy relax, take off your shoes and let's just kick it  
Now baby take a sip of this clear wine

Let me take off your shirt  
Let me rub your back  
I'm gonna take my time with this  
I know you like it just like that  
Right now it's time to play  
And I'll do what you say  
So lay up on my bed

Put your head up on my pillow  
Come here lay your head up on my pillows  
I will do the rest for you  
Just tell me what you like  
I'm here to satisfy  
Don't matter speak your mind  
And you will find it right here in my pillows  
Come here lay your head up on my pillows  
I can ease the stress for you  
Don't stop 'til you're complete  
I'll keep it coming  
Lay it right here on my pillows boy

Appreciate that you could be so understanding  
When I'm working on my music  
And I respect the fact that you still got your hustle  
Try my best to let you do your thing  
I like to do some things that we don't do no more  
Take it back to way before  
Making so much noise  
Neighbours banging on the door  
Like knock knock  
Nobody's home yeah

Let me take off your shirt  
Let me rub your back  
I'm gonna take my time with this  
I know you like it just like that  
Right now it's time to play  
And I'll do what you say  
So lay up on my bed

Put your head up on my pillow  
Come here lay your head up on my pillows  
I will do the rest for you  
Just tell me what you like  
I'm here to satisfy  
Don't matter speak your mind  
And you will find it right here in my pillows  
Come here lay your head up on my pillows  
I can ease the stress for you  
Don't stop 'til you're complete  
I'll keep it coming  
Lay it right here on my pillows boy
