How much can a woman take?
How much pain before a heart can break?
I placed my life into your hands
but now, I've got to change my plans

Just for a while, I'm going to hold back my tears,
open my ears to my heart, and baby
Just for a while, I'm going to be someone strong,
keep walking on without you, that's what I'll do

And how much can a woman cry?
What does it take before she sees the light?
My body was weak for your touch
But now it just hurts too much

(Baby) Just for a while, I'm going to hold back my tears,
open my ears to my heart, baby
Just for a while, I'm going to be someone strong,
keep walking on without you, that's what I'll do

I thought being "second" was how it should be
It took me losing you to find me
I'm better off all by myself
'Been living with you in a shell

Just for a while, I'm going to hold back my tears,
open my ears to my heart, and baby
Just for a while, I'm going to be someone strong,
keep walking on without you, that's what I'll do

Hey baby - what can I say?
We've been together for many a day
Don't say a word, just slip away
You know I love you but I just can't stay
Packed my bags, I'm sure gonna miss ya, honey
and I'm sure gonna miss your lovin'
and I'm sure gonna miss your huggin'

Repeat chorus
