Ooooh oooh hey

Leona Lewis

Just When you think that it's over
You're hit with a brand new star
And you find right there within you
That you never lost that spark

Chorus: Jennifer hudson:Leona Lewis

Love is your colour
It makes you shine
I know I know
So Show Your colours
It comes from inside
Everything else is black and white

But Love is your colour(Be the colour)
Love is your colour (show your colour)
Love is your colour(yeah)
Jennifer Hudson;
Some say it's just an emotiom
That comes and goes with time
But love is your colour

It makes you shine
Sometimes it's hard to cope
Long as you always know
To show your colour
It comes from inside

Everything else is black and white
(Love is your colour)

Leona lewis:

Time is a force that we
Can't hold back
It moves on like a thief
In the night(love)

Jennifer Hudson:

Love is a friend that
Will hold your hand

Always right there by your side(side)

Love is your colour
It makes you shine (it makes you shine)
I know (I Know) I know
So Show Your colours
It comes from inside

Everything else is black and white(oh no no no)
Love is your colour(Be the colour)
Love is your colour (show your colour)
Love is your colour(oh oh yeah)(eh eh)

Love is your colour(Be the colour)
Love is your colour (show your colour)
Love is your colour(ohhh)
Love is your colour
It makes you shine
(It makes you shine)
I know (I Know) I know
(I know, I know, I know, I know)
Love is your colour
It comes from insides
Everything else is black and white(ohhh)

Love is your colour(Ohhh)
Love is your colour(Ohhh)
Love is your colour(Ohhh)

Love is your colour(Be the colour)
Love is your colour (show your colour)
Love is your colour
