Turn Your eyes from on this way
I have proved to live a dastardly day
I hid my face from the saints and the angels who sing
of Your Glory

What You had in mind
When we seek we'll find shine show me grace

A Little More than i can give
A little more than i deserve
Unearth this holiness i can't earn
It's a little more than i can give
A little more than i deserve

For all the sin that lives in me
It took a nail to set me free still,
What i do i don't want to do and so goes the story

What You had in mind
When we seek we'll find, shine, show me grace

A Little More than i can give
A little more than i deserve
Unearth this holiness i can't earn
It's a little more than i can give
A little more than i deserve

With all this motivation i still find a hesitation deep in
my soul
Despite all my demanding i still find You
understanding
Show me Grace show me Grace i know is...

A Little More than i can give
A little more than i deserve
Unearth this holiness i can't earn
It's a little more than i can give
A little more than i deserve
