Blind these eyes who never tried  
To lose temptation  
I'm so scared, where's the hesitation?  
You so easily proved that You could save a man  
I am that man

#### CHORUS

It's better off this way  
To be deaf, dumb and lame  
Than to be the way I am, I am  
It's better off this way  
Than be groping for the flame  
Than to be the way I am, I am  
Still this tongue for I am hung  
By this wicked notion  
Tame the beast, release  
The noose I've woven  
O, wasted tears dripping from my tongue  
Well I'm hung, hung

#### CHORUS

Crooked path you never asked  
You just left me there  
And I deal with the aftermath  
And you don't even care  
O, crooked feet you nimbly meet the place of my fears

#### CHORUS
