Jennifer
Okay okay
Roll again

Chorus:
Get on the mic you know it easy oh my
Get on the mic boy I love you long time
Get on the mic you make me feel so blind
The way you fill your mind, you know I press the whine
And what can I say Iâ€™m feeling you

Heâ€™s a legend in the rapping
This voice is the blame to fame
His rhythm is similar to basketball
The way he shakes and he fakes and he take some
more

With everything he does, makes me feel his love
When the dj plays this song and we all sing along,
Up in the club with our dreams in the air and itâ€™s all
because
Heâ€™s a poet, if the world doesnâ€™t say it I hope that he
knows it
This is for chris, big up to nas, this is for biggy of
course,
Shout out to brooklyn, and hereâ€™s to the bronx where it
all begin

Chorus:
Get on the mic you know it easy oh my
Get on the mic boy I love you long time
Get on the mic you make me feel so blind
The way you fill your mind, you know I press the whine
And what can I say Iâ€™m feeling you

And I was going up and the boggie down
Hoping that music would be my face,
Looking for a way to escape,
Recording the radio took a set tape
They all saw to the umcâ€™s
Snoop dog, andre and now itâ€™s 50

All day, every day
'Cause mc's they make me feel a special way
Down town and your families,
Back up to bone thugs and harmony
And I can't forget the ladies,
Oh no the ladies knowing you crazy
Little kid Latifah you the queen
Saw in her poor Mary J and Eve
You'll need to understand
Suga make me wanna be who I am

[Chorus:]

Lil Cool J, EP and D Rock in two short, Easy E
Shout out to the... oh Dirty B
This monkey could compete school,
Jessy Joyce and the Beastie Boy
Cool J... our ghetto boys,
2Pac, Ice Cube and High Top
Rex in the... Master Flex
Made it Tongue's Daddy B, BDP Public Enemy
DJ Click in the Tarest Watch
Stretch Armstrong play the Goodie Mob,
Po Rock and you don't stop,
Grab the one chain you don't stop,
It's the sad and you don't stop
Make it on the mic and let me see what you got

Get on the mic and let me see what you got
Get on the mic and let me see what you got
