Right here, it's another Dark Child Classic, you know  
Somethin' that you can lean to  
Somethin' that you can ride to  
Somethin' that you can step to, you know

Keep back

Sometimes real love can be  
Not seen 'cause you're thinkin'  
What's right in front of you  
Can't be the one for you

Then one day you realize that  
There are feelings that you can't hold back  
And you're so caught up now that's all you think of  
Crazy how

All that talk of us not able to last, oh  
Just because of mistakes we made in the past  
But they failed to understand

I got you and nobody can come and change a thing  
'Cause you gotta know, you got me  
And it feels so good to have you back now  
I'm so proud, I got you  
And if somebody tries to take you from me  
They will see, I got you, you got me  
I got you

Things are often said to  
Doubt what I feel for you  
But words that people say  
Won't take my love away

Although it hurts sometimes, it's alright  
But why they say some things? That ain't right  
I never know but please understand that  
Baby, it ain't nothin'

All that talk of us not able to last  
Just because of mistakes we made in the past  
But they failed to understand

I got you and nobody can come and change a thing  
(Oh no)  
'Cause you gotta know, you got me  
(You got me)  
And it feels so good to have you back now  
I'm so proud  
(I'm so proud)

I got you and if somebody tries to take you from me  
(They'll see)  
They will see, I got you  
(I got you, baby)  
You got me  
(You got me, baby)

I got you  
(I got you, baby)  
You got me  
(You got me, baby)

Talk, is all that people can do  
Never mind all that love, all that you  
Gotta do is simply  
Love, trust, and just stay focused on us

Together, we'll get through  
Whatever if we don't let speculations  
Mix situations up, we'll be alright

I got you and nobody can come and change a thing  
(Nobody, nobody)  
'Cause you gotta know, you got me  
And it feels so good to have you back now  
I'm so proud

I got you and if somebody tries to take you from me  
(Oh, oh)  
They will see, I got you  
(I got you, baby)  
You got me  
(You got me, baby)

I got you  
(Ooh)  
And nobody can come and change a thing  
(Feels so good inside)  
'Cause you gotta know, you got me  
(You got me, baby)  
And it feels so good to have your back now  
I'm so proud

I got you and if somebody tries to take you from me  
(Oh baby, they'll see)  
They will see, I've got you  
(I got you)  
You got me  
(Yes, you got me, baby)

I got you  
(Nothing comes between us)  
You got me  
(You got me)

I got you  
(Through whatever)  
You got me  
(You're all that I need)

I got you  
(Oh, baby)  
You got me  
(Forever, baby)

I got you  
(I got you)  
You got me  
(You got me)

I got you, you got me  
I got you, you got
