Remember when I was young  
And dreaming of falling in love,  
Thinking who would be the one, to take my breath away  
Always wanted something real  
A bond no one can break  
Praying that I would feel the way I do today

Finally you came in my life and I can't deny  
It was you, the one in my dreams  
A blessing to me, something for me to live for  
Cause of you, I can finally hear the song of myself  
The sweet melody and I knew it was you

Just wanted to let you know  
That you give me all that I need  
Hoping that we can grow, grow together  
Cause what we have become, I'll never throw it away  
Two lives made into one, doesn't get any better

Finally you came in my life and I can't deny  
It was you, the one in my dreams  
A blessing to me, something for me to live for

Cause of you, I can finally hear the song of myself

I know I'm coming on real strong  
But I believe that we belong together  
Can you love me forever?  
Cause you got me feeling you  
I know that we got our way to grow  
But I have never felt like this before  
Every touch and kiss you got me feeling  
Feeling this. . .

It was you, the one in my dreams  
A blessing to me, something for me to live for  
Cause of you, I can finally hear the song of myself  
The sweet melody and I knew it was you  
The one in my dreams  
A blessing to me, something for me to live for  
Cause of you, I can finally hear the song of myself  
The sweet melody and I knew it was you
