Do you remember what you said to me the day I met
you
Like yesterday I still can hear your voice, you promised
to be
Still in my life no matter what you had to do to be there
Well, it's been a while and here we are lookin' back on
times that we shared

I still imagine us being young and so in love
Never apart, you were my heart
Seems like it's always just been us

[Chorus:]

I remember we were in the park
Holding hands and you said to me
I'm the only thing you need
And I would make your life complete
If I said I'd be your girl
You would stay with me forever
Boy, you never let me down
Through it all you're still around
Still around (yeah)

I still believe in all the things you said to me in those
days
You gave me love and kept your word with every
promise you made
I sing your favorite song inside my head when you're
not with me
Until you come back home and take me in your arms
and hold me

I can imagine us being old and still in love
Never apart, you are my heart
Makes me smile, we're still in love

I remember we were in the park
Holding hands and you said to me
I'm the only thing you need
And I would make your life complete
If I said I'd be your girl
You would stay with me forever

Boy, you never let me down
Through it all you're still around

Looking back through all the years

[Man speaking:]

Heh

You remember the first time I went to your house
And your father looked at me like I had three heads
(And I will never forget the day)

Heh

We were so in love
(Looking back through all the years)
You were so beautiful and so young
(And I will never forget the day you came into my life
and what you said to me)
I can't believe you're still mine
That's crazy
I love you

I remember we were in the park (we were in the park)
Holding hands and you said to me (holding hands)
I'm the only thing you need
And I would make your life complete (and I would your
life complete)
If I said I'd be your girl
You would stay with me forever (I'm still your girl)
Boy, you never let me down
Through it all you're still around (I'll never let you down,
my baby)

I remember we were in the park
Holding hands and you said to me
I'm the only thing you need
And I would make your life complete
If I said I'd be your girl (said I'd be your girl and)
You would stay with me forever
Boy, you never let me down
Through it all you're still around
Still around (yeah)
