Ahh
Yeah
Dark child
Jennifer
No bets
Lets hit

I know you see me watchin'
Although you're tryin' to play it
Like you don't
(Don't)
When I know you do
(Do)
You've got that every one thing
That kind of every need thing
You're what I want?
(Want)
So come give it up, yeah

I won't stop 'til I get what I want
(Na, na, na)
So what am I to do
'Cause what I want is you
(Baby all I want is you)
Baby, stop and think
(Yeah, yeah)
What you and I could be?
(I could be)
Together I know we
(I know we)
Can be perfectly complete
(So baby)

Baby, I can give you anythin'
(You are my love)
If you promise to be with me
(Yes I can)
I promise, I can make you happy
That's the way our love should be
('Coz that's the way)
(Our love should be)
No one could love you better anyway

(You know what I mean?)
You'll never find another close to me
(Yeah, yeah, yeah)
I promise, I can make you happy
And that's the way our love should be

Why are you tryin' to deny?
(Deny)
Me of the lovin' that's mine
Just let it go
(Go)
Let me take control
(Control)
Boy, I got just what you want?
And all the love you need
Once you grab a hold
(Hold)
You won't let me go, no
(Go)

I won't stop 'til I get what I want?
(I won't stop)
(Every thing I need)
So what am I to do?
(What am I to do)
'Cause what I want is you
(All I want is you)
Baby, stop and think
(Oh no)
What you and I could be?
(What we could be)
Together I know we
Can be perfectly complete
(Perfectly complete baby)

Baby, I can give you anythin'
(I need your love)
If you promise to be with me
(Yes I can)
I promise, I can make you happy
That's the way our love should be
(Ahh 'coz that's the way)
(Our love should be)
No one could love you better anyway
(Uhh oh)
You'll never find another close to me
(Not find close to me)
I promise, I can make you happy
(Oh)
And that's the way our love should be

(Oh)
Baby, I can give you anythin'
(Anythin' you want from me)
If you promise to be with me
(Please stay with me)
I promise, I can make you happy
(Ahh)
That's the way our love should be
(Woo, woo)
No one could love you better anyway
You'll never find another close to me
I promise, I can make you happy
And that's the way our love should be

If I let my actions speak
(Yeah)
I guarantee you believe
(Believe)
How much I really do love you?
(How much I do love you?, oh)
If I could spend my whole life
(Spend my life, yeah)
Just lookin' into your eyes
I'll be happy just knowin' you're with me
(You're with me, my love)

Baby, I can give you anythin'
(Anythin')
(Shake it)
If you promise to be with me
(Be with me)
(Shake it)
I promise, I can make you happy
(Shake it)
That's the way our love should be
(You should be with me)
(Shake it, shake it, shake it, shake it, shake it)
No one could love you better anyway
(Baby)
(Shake it)
You'll never find another close to me
(Baby)
(Shake it)
I promise, I can make you happy
[Incomprehensible]
And that's the way our love should be
(Baby)
(Top job baby)

Baby, I can give you anythin'
(Oh baby)

If you promise to be with me
(Oh baby)
I promise, I can make you happy
That's the way our love should be
(Oh 'coz that's the way our love should be, baby)
No one could love you better anyway
(You should be lovin' me)
You'll never find another close to me
(As you will find no one like me)
I promise, I can make you happy
(You are not knowin' this)
And that's the way our love should be
(And that's the way our love should be)

Baby, I can give you anythin'
If you promise you'd be with me
I promise, I can make you happy
That's the way our love should be
No one could love you better anyway
You'll never find another close to me
I promise, I can make you happy
And that's the way our love should be
Baby, I can give you anythin'
