Some people want to hurry love.
Some take it slow.
Some people workin' overtime.
Tryin' to force the feeling.
I knew it from the first hello.
Gotta let it grow.
But now it's got a hold on us.
We can't keep concealing.

All the emotions we need to explore.
I know you want to but if you're not sure just . . .

Listen to your heart, listen to mine.
Love is the rhythm, we are the rhyme.
Go with the feeling. Now is the time.
Listen to your heart, listen to mine.

There's magic in the moon tonight.
We can't resist.
There's something in the air tonight.
Pulling us together,
Oh baby when you touch my face.
With just one kiss.
Only you can make me feel this way.
Let's steal away forever.

Love is the answer, love's on our side.
If you believe than let love be your guide just . . .

Listen to your heart, listen to mine.
Love is the rhythm, we are the rhyme.
Go with the feeling. Now is the time.
Listen to your heart, listen to mine.

Some things are right from the start there for certain.
You and me it just has to be.
We don't need anymore than we've got.
Love is the fire and it's getting hot. . .

Listen to your heart, listen to mine.
Love is the rhythm, we are the rhyme.

Go with the feeling. Now is the time.
Listen to your heart, listen to mine.

Listen to your heart, listen to mine. (Escuche su
corazÃ³n)
Love is the rhythm, we are the rhyme. (Escuche el mÃ-
os)
Go with the feeling. Now is the time. (El ritmo estÃi

Listen to your heart, listen to mine. (Jaja! Su mina)

Listen to your heart, listen to mine. (Ahora estÃi el
tiempo)
Love is the rhythm, we are the rhyme. (Aaah!! EstÃi el
tiempo)
Go with the feeling. Now is the time. (Escuche su
corazÃ³n)
Listen to your heart, listen to mine. (Escuche el mÃos)
