Baby brown  
I think I need you now  
to put me down  
and help me lift me up  
your shaking bones  
in my telephone  
no good for anyone

Baby brown  
so you think you know me now  
you tell me how  
and show me everything  
your wandering mind  
and your restless kind  
I want you here to make some sound

Oh, silent night  
oh, holy night

Baby brown  
now you're more than you mean to be  
you're mean to me  
you take away from me  
my shaking bones  
in your telephone  
don't you hear that sound

oh, silent night  
oh, holy night  
oh, silent night  
oh, there's a hole in the night

oh, silent night  
oh, holy night  
oh, silent night  
oh, there's a hole in the night
