I danced for a while  
and my moves would make you smile  
oh, I loved you then  
my dear chemical lover

You veiled me in your haze  
like a puppet in your lace  
amazing disgrace  
from your silverspoon substance

You took me away  
made Monday a Saturday  
you stained me with love  
and left me in dirty laundry  
but I left my ground for a minute

Your body in my veins  
your power is what remains  
you know I never had  
such a bad, bad comedown

You took me away  
made Monday a Saturday  
you stained me with love  
and left me in dirty laundry  
but I left my ground for a minute

My, oh my  
you took pride in my fuck-up

I've been cursed  
and I've been hailed  
I have blown it  
and I've inhaled  
but I never had  
such a bad, bad comedown  
such a bad, bad comedown  
such a bad, bad comedown
