I remember all the days gone by  
Years before now when I was a child  
We ran through the town and [Incomprehensible]  
We did all the things which we had planned

Where has it gone  
Where has the childhood gone?  
Where has it gone  
Where has the childhood gone?

Thousand times we played down in the street  
We had fun while we played hide and seek  
We ran through the town like we'll never do anymore  
We did all the things we should ignore

Where has it gone  
Where has the childhood gone?  
Where has it gone  
Where has the childhood gone?

Where has it gone  
Where has the childhood gone?  
Where has it gone  
Where has the childhood gone?

Where has it gone  
Where has the childhood gone?  
Where has it gone  
Where has the childhood gone?
