Who he is I can't catch my breath to stop and see Who I
am how we move I just sit and watch the frenzy Is this
what you meant Is this happy What's going on all
around me I just can't work it out exactly It all comes
down so abstractly It's every wish I ever made or ever
thought I might It's the way of the world of you and me
It's the way of the world of you and me Baby all I know
is I love the way I feel tonight It's the way of the world
It's the way of the world What does it mean All the
flowers I've received Spinning and flashing and
dashing It must be raining botany But then we just
burst out laughing And narrowly escaping In an accent
that I'm sure he's faking What zone is this we're
passing It's the way of the world of you and me It's
every wish I ever made or ever thought I might It's the
way of the world of you and me Baby all I know is I love
the way I feel tonight It's the way of the world It's the
way of the world Lost in the mystery I'm thinking to
myself Baby with all you all I know is I go somewhere
else In some other world There's nowhere else I'd
rather be It's the way of the world of you and me It's the
way of the world of you and me It's every wish I ever
made or ever thought I might Baby all I know is I love
the way I feel tonight The way of the world of you and
me It's every wish I ever made or ever thought I might
Baby all I know is I love the way I feel tonight It's the
way of the world of you and me It's the way of the world
of you and me Baby all I know is I love the way I feel
tonight It's the way of the world of you and me
