How can I belong when I'm feeling lost
How Can I believe when my faith is gone
My heart is slow, nights are long
And home is far away

When I think of you I see what we had
Was everything a lie, was it all so bad
I packed my bags, grabbed my case
And I walked away

I need, sometime to wonder why
So this time, I mean goodbye

Chorus

I found the road, to nowhere
Gonna keep on walking I don't even care
Drag my heels, on the floor
Gonna lose my way, never been this way before
Gonna lose my way, never been this way before

How can I be strong, when I'm feeling weak
I can't apologise, when I cannot speak
The only thing I know is that
I'm far away from home

The pictures that I had I took off the wall
The memories that I have I will see them all
Not a day goes by, I wonder if
Maybe I was wrong

But I've seen, this all play out before
So this time I'll close the door

Chorus

Bridge

How come everything about you
Makes me want to run away
At the same time, everything about you
Makes me want to stay...
