The night is all night
Silence has taken its toll
Don't wanna seem unkind
But the A...A...A...A... love just ain't right

Love calls but your heart won't sit still
Curtains fall on the way that you feel
I wanna know, is this for real
You say there's nothing you can do
But you know that's not true

Cos it's down you
It all comes down to you
When the night is through
It all comes down to you
Down to you

So here I am
The time's come for taking a stand
No I can't read your mind
So why don't you lay it right down on the line

Another girl who's been pushed to the wall
When all's said and done is the order too tall
You'll never know til you let go and fall
Does it mean enough to you that you need my love too
Cos it's down you
It all comes down to you
When the night is through
It all comes down to you
Does your heart start to run
The closer my love gets to you
Down to you

Love calls but your heart won't sit still
Curtains fall on the way that you feel
I wanna know, babe what's the deal

Down to you
When the night is through
It all comes down to you
Does your heart start to run

The closer my love gets to you
Someday you'll need someone
But I've done everything I can do
Down to you
Down to you
Hey it's down to you
Down to you
Hey it's down to you
This time it's down to you
Ooh down to you
Down to you
