I'll be a river and flow into you
Everyday, steady and strong
And I won't ever leave you
I won't ever hurt or let you down
I'll always receive you
In this harbor you've found

Nothing's gonna take this thing we've got away
Nothing's gonna shake or make us stop

Whatever we want
Whatever it is
We won't let them break
This fortress we've made
This fortress we've made

If I tell you I'm sailing
It's not only now but it is forever
'Cause I'll always find shelter
In this harbor we've found oh yeah

Nothing's gonna take this thing we've got away
Nothing's gonna shake or make us stop

Whatever we want
Whatever it is
We won't let them break
This fortress we've made
This fortress we've made

When you wake up in the morning
And I'm smiling at you
Do you get the kind of feeling
Like wild horses running through
When I hold you let it shake you
Let it take you away
Let it hit you like a bullet
Let those emotions find their way
Do you know that they will
You know that they will

Whatever we want

(You know that they will sweet baby)
Whatever it is
We won't let them break
(You know that they will sweet baby)
This fortress we've made
This fortress we've made
Whatever we want
(You know that they will sweet baby)
Whatever it is...
