Time after time live fades away
Night after night you keep givin' me the faith
When my heart needs to feel it
Hold me close for a lifetime
In your arms I believe it, you take me away

Never thought we'd get the chance to dance forever
Only in a dream has love come this far
Two souls, two hearts that fly together
We're reaching the unreachable
Our love is untouchable

Deep as it goes, hard as it might be
We'll climb the highest road
Through the clouds to where we'll always be
When the walls crumble down
It's your love that surrounds me
Your heart is the sound that makes me away

Never thought we'd get the chance to dance forever
Only in a dream has love come this far
Two souls, two hearts that fly together
We're reaching the unreachable
Our love is untouchable

Up here it looks so clear
I'm so sure this time
That we will always find the answer
Rock by rock the mountains that used to
Look so high are possible
We're untouchable

Untouchable ohh
(Take me higher and higher baby)
To the unreachable
We'll never look back now baby, ohh
Take me higher and higher
Our love is untouchable
Till we can see forever
