When we said our last goodbye  
There was so much still on my mind  
But I kept it all inside  
The world-can be a crazy place  
You forget the things you want to say  
And let the moment slip away

How I wish that I have time to make you see  
How everything you did  
It really mattered to me

You always told me I should never let up  
Hold my head up high  
You always told me that I should never give up  
Reach for the sky  
Said you'll be looking out for me  
No matter what we're going to be-  
Are you out there now?  
Watching over me...

So many times I long to see you  
To just pick up the phone and call you  
So we could talk like we used to  
I wonder what you think of me now  
Even though I'm still trying to figure it out  
I wonder if, I make you proud

How I wish that I have time to make you see  
How everything you did  
It really mattered to me

You always told me I should never let up  
Hold my head up high  
You always told me that I should never give up  
Reach for the sky  
Said you'll be looking out for me  
No matter what we're going to be-  
Are you out there now?  
Watching over me...

Never the one to misunderstand...  
Never the one to hold back your hand (day after day)

Stood by me day after day (find my way)  
Made me believe I'll find my way  
Are you out there now?  
Are you out there now?

You always told me I should never let up  
Hold my head up high  
(Hold my head up high)  
You always told me that I should never give up  
(Wish you are still be my side)  
Reach for the sky  
Said you'll be looking out for me  
(Say you'll be looking out for me)  
No matter what we're going to be (oohhh yeah)  
Are you out there now?  
Watching over me...

Oh yes you are  
You're out there now  
Watching over me...
