I'm like a moon falling  
Just like a moon falling  
I'm attracted to you but I will never get through  
I'm like a moon falling

I'm like a wave rolling  
Just like a wave rolling  
I reach for the sky, I will never get high  
I'm like a wave rolling

Just too fast, too high  
Coming so close I could touch your sky  
Keeping my distance 'till it makes you cry  
Why why why

I'm like a moon falling  
Like a moon falling  
I reach for the sky, I will never get high  
I'm like a moon falling

Baby we're just too fast, too high  
Coming so close I could touch your sky  
Keeping my distance 'till it makes you cry  
Why why why

Too fast, too high  
Coming so close I could touch your sky  
Keeping my distance 'till it makes you cry  
Why why why

I see your love fading  
No turning back, I keep falling to black  
(Repeat to end)
