"Little Little"

Visit "[Little Little](#)" on MotoLyrics.com

Pulsing away, just like thunder in your little ear
Be brave, it won't be long till you meet us
My blood is your blood
I'll feel you till the day I die
Dear little little, sweet little little
I love every little thing about you
Even though I can't see your shining eyes
I can tell I'm gonna love you
By the way I love you now
And it's your little little kick down below
Makes me feel the strength of a hundred forces
I never felt the power of a love like this before
Noises from outside, you hardly hear at all
Your lifeli-i-ine pulses with anticipa-y-a-y-a-yation
No dark and dim thoughts
Confound your little hea-ea-ead
Floati-i-ing in paradise
Remember little little little
I love every little think about you
Even though I can't see your shining eyes
I can tell I'm gonna love you
By the way I love you now
See what you can do
And you haven't even showed your face to the world
ye-et
You've got power we've forgotten
Everybody's born with, but they lose it
I love every little thing about you
Even though I can't see your shining eyes
I can tell I'm gonna love you
By the way I love you now
And it's your little little kick down below
Makes me feel the strength of a hundred forces
I never felt the power of a love like this before
And I love you little little
I-I love you little little little
